

The Girl Named Trees

About Our Coloring Book

This coloring book is a companion book to *The Girl Named Trees* children's book, a story about the girl named Trees and her trip to the hospital, far, far away at the top of the world . . . Alaska it's called!

The illustrations in *The Girl Named Trees* children's book are artworks that were all hand-painted on silk fabric by Gina Murrow of Chugiak, Alaska.

When Trees wrote the book she only had very simple sketches for each page.

Trees and Gina reviewed the art concept planned for each page then Gina created a line drawing for each one. Lastly, Gina painted all of them on silk!

Snippets from just a few of those sweet line drawings created for the 50 paintings in *The Girl Named Trees* children's book are the basis of these coloring pages.

If you would like to match up the drawings to the paintings in the book, see the activity pages after the coloring pages. *The Girl Named Trees* children's book and coloring book are free to print from thereseagramercy.com. Enjoy!

with love,

Therese Gramercy,
